SKILLS

Programming Languages

- Java
- C/C++
- JavaScript
- Python

Frontend

- HTML
- CSS
- Tailwind CSS
- React JS

Backend & Databases

- Node.js
- Express.js
- MySQL
- MongoDB

Tools & Platforms

- Git
- Git Bash
- GitHub

EDUCATION

ISC (Class XII)

St. Francis College, Lucknow
92% | 2021 – 2022

B.Tech. in Electrical & Electronics

Dayananda Sagar College of
Engineering, Bangalore
CGPA: 8.38 / 10 | 2023 - 2027

CERTIFICATIONS

Gemini Certified Educator

Google for Education, 2025

Gemini Certified Student (University)

Google for Education, 2025

Deloitte Australia – Data Analytics

Job Simulation

Forage, 2025

Hands-on Session: Cloud in Action –

Practical Dive into AWS Services

Dayananda Sagar College of
Engineering, 2025

SUMMARY

Aspiring Full-Stack Developer with experience in building web applications using the MERN stack, React.js, and Tailwind CSS. Skilled in frontend development, API integration, and problem-solving with a strong foundation in Data Structures and Algorithms. Passionate about creating impactful projects and continuously learning modern technologies.

EXPERIENCE

Open Source Developer Jan 2026 – Mar 2026

Social Winter of Code | HTML, Tailwind CSS, JavaScript, TypeScript

- Recognized as Winner & Top Contributor for delivering impactful contributions across multiple open-source projects.
- Contributed to Proofolio, TourEase, Nutrivigil, ShareBite, and GroqTales by improving UI/UX, fixing bugs, and implementing features like testimonials and multilingual support.
- Collaborated with maintainers through pull requests, code reviews, and issue resolutions while following industry-standard Git workflows.

Frontend Developer Intern Nov 2025 – Dec 2025

CODEXINTERN | React.js, Tailwind CSS, JavaScript

- Developed responsive frontend components and interactive user interfaces for web-based projects.
- Collaborated with mentors and team members to implement feature requests and resolve frontend issues.

Java Full Stack Intern Feb 2025 – Mar 2025

Zidio Development | Node.js, Express.js, JavaScript, MySQL

- Developed RESTful APIs with CRUD functionality, structured responses, and error handling using Node.js and Express.js.
- Documented API endpoints, setup instructions, and testing workflows while maintaining modular and scalable code architecture.

Open Source Developer Dec 2024 – Feb 2025

Kharagpur Open Source Society | JavaScript, HTML, CSS, JSON

- Contributed to open-source projects including Travel_Website, CalcDiverse, and Beautiify during KWOC 2024.
- Worked with maintainers through pull requests and feedback cycles, delivering multiple successful merged contributions.
- Strengthened expertise in collaborative development, version control, and production-level open-source workflows.

PROJECTS

SENTRI | Node.js, Express.js, MongoDB, FastAPI, n8n Apr 2026 – May 2026

- Developed the Node.js backend for an AI-powered ICU deterioration monitoring and escalation platform handling real-time patient workflows.
- Built RESTful APIs for patient management, vitals ingestion, prediction handling, AI summaries, and alert orchestration using Express.js and MongoDB.
- Integrated FastAPI-based XGBoost inference services and implemented rolling-window vitals processing for continuous temporal risk analysis.
- Automated ICU escalation workflows using n8n with Telegram and email alerts for critical patient conditions.

BlogVibe | MongoDB, Express.js, React.js, Node.js, Tailwind CSS, JWT Oct 2024 – Nov 2024

- Built **BlogVibe**, a MERN stack blogging application with a responsive UI using Tailwind CSS for creating and managing blog posts.
- Implemented **user authentication, comments, and like functionality** to enable secure user interaction and engagement.

ACHIEVEMENTS

- **Winner & Top Contributor** in Social Winter of Code 2026.
- **Successfully completed Kharagpur Winter of Code 2024** with 7 PRs, 25 commits, and 1000+ lines contributed across open-source projects.
- **Reliance Foundation Undergraduate Scholar** awarded by Reliance Foundation in Feb 2024.
